MobileOffice **H100**

plustek

MobileOffice Series

Instant preview ensures your images are captured accurately!

1-TOUCH BUTTON | CLOUD | SEARCHABLE PDF | LED light source | USB power

Plustek MobileOffice H100 hand held portable scanner is a small, easy to use scanner that can scan just about anything including: documents, business cards, book pages, manual pages, magazine articles, signature documents, scrapbooking and more. With the MobileOffice H100 and iScan, your images are captured quickly and accurately. You always have instant feedback that your image is being captured the way you want it to be.

The USB connection on the MobileOffice H100 eliminates the need for batteries and memory cards. You will never run out of power or storage space in the middle of a scanning job! Data is transferred immediately to your PC so there are none of the with confidential data loss concerns that plague battery operated scanners.

MobileOffice H100 is a perfect mobile scanning solution for students, business travelers, historians and researchers.

MobileOffice **H100**
